North Charleston, SC 29419-9010

RE: Sampling and Analysis Report, Building 190,
Naval Air Station Cecil Field, Florida.

Dear Mr. Davidson:

I have completed the technical review of the Sampling and Analysis Report Addendum, dated November 1999 (received November 15, 1999) submitted for the above-referenced building. FDEP concurs with the recommendation of no further action for the building under the BRAC Program. However, as you are aware, an investigation is currently underway, pursuant to Chapter 62-770, F.A.C.

FDEP's concurrence is predicated on the information provided by the SOUTHNAVFACENGCOM. Therefore, any new information contradicting the basis for this concurrence, may require further investigation or remedial actions.

If you have any concerns regarding this letter, please contact me at (850) 921-9991.

Sincerely,

Michael J. Deliz
