23 OCT 1987

Mr. H. Morgan, T-4-3
U. S. Environmental Protection Agency
Region IX
215 Fremont Street
San Francisco, CA 94105

Dear Mr. Morgan:

This letter summarizes the past data validation requirements for the Naval Station, Treasure Island, Hunters Point Annex Scoping Document. These items were discussed and agreed upon during telephone conversations between yourself and Mr. Steve Farley of Harding Lawson Associates on September 10 and 11, 1987.

For the purposes of developing the Scoping Document, the previous data will be used only as a screening mechanism in the scoping process. Thus, the validity of the existing data will be established by verifying that previous reports contain a reasonable level of data documentation. A rigorous statistical evaluation of the data is not necessary if the data are to be used for screening purposes.

The specific steps taken to validate past data and the level of data documentation available will be presented in the Scoping Document. If you have any questions concerning this subject, the point of contact is Commander, Western Division, Naval Facilities Engineering Command (Attn: Mr. Alex E. Dong, Code 1146, (415) 877-7504).

Sincerely,

P. W. DRENNON
CAPTAIN, CEC, USN
COMMANDER
