Mr. Eric Nuzie
Federal Facilities Coordinator
Bureau of Waste Cleanup
Department of Environmental Protection
2600 Blair Stone Road
Tallahassee, Florida 32399-2400

Dear Mr. Nuzie:

Enclosed are the results of soil sampling at Naval Air Station, Jacksonville. The sampling was conducted on December 1 and 7, 1994 at Building 101 Electroplating Shop, and on April 25 and May 6, 1994 at the North Machine Shop and the East GSE Shop. During the recent RCRA inspection, the purpose of the sampling was not clear and may have been misunderstood. These samples were taken as part of the Station's Installation Restoration Program, not as part of the RCRA Closure permit.

If you have any questions, please contact Ms. Diane Lancaster, Facilities and Environmental Department, at (904) 772-2717.

Sincerely,

KEVIN H. GARTLAND
Director, Environmental Division
By direction of the Commanding Officer
