Subj: UNDERGROUND STORAGE TANK INVESTIGATIONS AT NAVAL AIR STATION, MOFFETT FIELD

This letter is in reference to the telephone conversation on February 11, 1988 between Dan Verwoert of ERM-West and Chloe Jue of our office concerning the underground storage tank investigations at Naval Air Station (NAS), Moffett Field. Regulatory agencies have expressed concern about the possible quality assurance (QA) inconsistency of such investigations being conducted by different contractors. In order to reduce the QA inconsistency, we request ERM-West to follow the sampling and QA procedures described in the various Remedial Investigation planning documents for NAS Moffett Field. This letter serves to confirm that ERM-West will follow these sampling and QA procedures while performing underground storage tank investigations at NAS Moffett Field.

Should you have any questions regarding this matter, the point of contact is Commander, Western Division, Naval Facilities Engineering Command (Attn: Ms. Chloe Jue, Code 1146CJ, (415) 877-7504).

Sincerely,
