DEPARTMENT OF DEFENSE
DEPARTMENT OF THE NAVY

Notice of Availability: Identification of Uncontaminated Property at the Naval Ammunition Support Detachment (NASD), U. S. Naval Station Roosevelt Roads, Vieques Island, PR

On January 31, 2000 President Clinton issued a directive to the Secretary of Defense, supported by Governor Rosselló, that stated the Navy must submit legislation to the Congress to transfer the NASD (except approximately 100 acres of land at the Relocatable Over The Horizon Radar (ROTHR) and Mount Pirata telecommunications sites) to the Commonwealth of Puerto Rico. This directive stated the land must be transferred no later than December 31, 2000 for the benefit of the municipality of Vieques as determined by the Planning Board of the Government of Puerto Rico. This legislation would authorize the Navy to transfer the NASD and has been submitted to the Congress. It requires full compliance with the Comprehensive Environmental Response Compensation and Liability Act (also known as "CERCLA" or the "Superfund" law) of 1980.

In accordance with CERCLA Section 120(h)(4), the Department of the Navy gives notice that a document has been prepared that identifies uncontaminated property at NASD. Uncontaminated property is defined as "...the real property on which no hazardous substances and no petroleum products or their derivatives were known to have been released, or disposed of". This document was written based upon reviews of each of the following sources of information concerning the current and previous uses of the property at NASD:
A detailed search of Federal Government records,
The recorded chain of title documents,
Aerial photographs that reflect past uses of the property,
A visual inspection of the property and adjacent properties,
A physical inspection of property adjacent to the property,
Federal, Commonwealth, and local government records of adjacent facilities where there may have been a release of any hazardous or petroleum substances, and that may likely cause or contribute to a release or threatened release of such substances on the property,
Interviews with current or former employees involved in operations on the property, and,
Chemical analysis of soil and groundwater samples for the presence of hazardous contaminants.

Of the 7,879 acres at NASD to be transferred, 7,389 acres have been identified as uncontaminated. Assuming Congress passes legislation for the land transfer, the deed of transfer for property identified as uncontaminated shall contain:
a covenant warranting that any response action or corrective action found to be necessary after the date of such transfer shall be conducted by the United States, and
a clause granting the United States access to the property in any case in which a response action or corrective action is found to be necessary after such date at such property, or such access is necessary to carry out a response action or corrective action on adjoining property.

490 acres have been delineated as "potentially contaminated" at NASD. This potentially contaminated property is planned for transfer in accordance with CERCLA Section 120 (h)(3)(C), entitled "DEFERRAL", also known as "Early Transfer Authority". Assuming the Governor finds this property suitable for transfer and certain response action assurances are provided, the Navy will complete the investigation and remediation of these potentially contaminated areas in full compliance with CERCLA after transfer of the property to the Commonwealth. After the completion of the cleanup efforts for these areas, the Navy will provide a warranty stating that all remedial action necessary to protect human health and the environment for any hazardous or petroleum substances remaining on the property has been taken. Further documentation to support the transfer of this potentially contaminated property will be developed by the Navy in the next several months to comply with CERCLA Section 120(h)(3)(C).

The document providing the identification of uncontaminated property at NASD is available for review at Biblioteca Pública, Calle Baldorioty de Castro, Vieques Island, PR; Museo Fuerte Conde de Mirasol, Barrio Fuerte, Vieques Island, PR; and Biblioteca Pública Municipal, Calle Fco. Gauthier #816 URB. Rossy Valley, Ceiba, PR.
