Mr. Stan Atwood, Toxicologist
Superfund Branch
NC Department of Human Resources
Division of Health Services
P.O. Box 2091
Raleigh, North Carolina 27602-2091

Dear Mr. Atwood:

We are forwarding review comments by environmental agencies to keep you informed of progress in our Installation Restoration Program (IRP). Atlantic Division, Naval Facilities Engineering Command and our contractor, Hunter-ESE, Incorporated, are addressing each of these comments. As members of the Technical Review Committee (TRC), we will review the comments and our responses at the next TRC meeting.

For further information about the enclosures, please contact me or Bob Alexander at (919) 451-3034.

Sincerely,

T. J. DALZELL
