PHONE CALL REPORT

PROJECT/LOCATION: Site 30 RI - MCB Camp Lejeune, NC

S.O. No.: 19160

DATE: 11-9-93

CONTRACT NO.:

To: Patrick Watter

From: Rich Bonelli

Repres.: NCDEHR - Solid Waste

Repres.: Baker

Phone No.: (919) 733-4996

Phone No.:

Subject: Downgradient monitoring wells at Site 30

Baker had received comments through LANTDIV on project Plans for OU#7 NCDEHR was concerned that only 1 downgradient well was to be sampled during the RI.

I contacted Patrick Watters at NCDEHR regarding his comment. We decided that "quick" turnaround soil samples will be used to determine if any additional downgradients wells would be required. Accordingly, if these samples indicate contamination, additional downgradient wells will be installed. This information will be stated in Final Project Plans.
