Mr. Jerry Rhodes, Head
Hazardous Waste Branch
North Carolina Department of
Human Resources
P.O. Box 2091
Raleigh, North Carolina 27602-2091

Dear Mr. Rhodes:

This letter is in response to a February 6, 1989 letter from Mr. James Carter of your Branch requiring clean up plans and a schedule for closure of the Naval Aviation Depot (NADEP) Hazardous Waste Drum Storage Lot. MCAS Cherry Point and the NADEP intend to contract a firm to perform a turnkey operation to clean up the site. However, contracting procedures for the federal government are regulated by the Brooks Act (40 USC 541 - 544). Because of these regulations, the minimum amount of time required to obtain a contract is 245 days. Development of a scope of work for this contract has already begun.

NS! who is doing this? who will contract?

Please understand that this command intends to comply with all environmental laws and regulations. Your cooperation in this effort is appreciated, and this command looks forward to the continued relationship in seeking solutions to common environmental concerns.

If you have any questions or need additional information, please contact Mr. Glenn Hartzog of the Natural Resources and Environmental Affairs Department at (919) 466-4598/4599.

Sincerely,

R. D. NELSON
Natural Resources and
Environmental Affairs Officer
By direction of the
Commanding General
