**RE: Final Corrective Measures Study, Revision 2, Solid Waste Management Units 19, 26, 28, and 56, Naval Station Mayport, USEPA ID #FL9 170 024 260, Mayport, Florida** (Tetra Tech, June 26, 2013)

Dear Mr. Hayworth:

I have reviewed the subject document dated June 26, 2013. It was received on June 26, 2013 and was completed under Contract Task Order 0033. The report states that *"A Corrective Measures Study (CMS) has been conducted for Solid Waste Management Units (SWMUs) 19, 26, 28, and 56 at Naval Station (NAVSTA) Mayport in Jacksonville, Florida by the Naval Facilities Engineering Command Southeast (NAVFAC SE) pursuant to the Resource Conservation and Recovery Act (RCRA)."*

Based on my review of the document, the Department concurs with the No Action recommendation for SWMUs 19, 28, and 56. Based on my review of the data, the screening of technologies and the assessment of the alternatives performed, the Department concurs with the recommended corrective measure alternative chosen for SWMU 26 which is Alternative 2. Alternative 2 involves implementing LUCs and maintaining the existing soil cover over the landfill.

Thank you for the opportunity to review this document. If you require additional clarification or other assistance, please feel free to contact me at 850/245-8999.

Sincerely,

John Winters, P.G.
Remedial Project Manager
