Attn: Mr. Wayne J. Hansel, P.E., Code 18B7

Subject: **Final Background Sampling Report for NTC, Orlando, Florida CTO #107, Contract No. N62467-89-D-0317**

Dear Mr. Hansel:

We are pleased to submit the Final Background Sampling Report for NTC, Orlando. Enclosed are two copies for you.

Analytes detected during site screening and remedial investigation activities will be compared to the background analyte values established in the enclosed report. This comparison will support site characterization and risk evaluations. The results of these comparisons may indicate that no additional investigations are required, and that the site is suitable for transfer. Alternatively, risk management decisions may require additional investigations or evaluations as a site enters the Installation Restoration (IR) program. Background values will also aid in selecting a remedial alternative if sites are carried through the IR program.

If you have any questions or need further information please contact me at 904/269-7012.

Sincerely,

ABB ENVIRONMENTAL SERVICES, INC.

Sandra Calhoun for James L. Manning
