Quality Control Board
Santa Ana Region
6809 Indiana Ave., Suite 200
Riverside, CA 92506

Dear Sir:

Chapter 160, Section 2705 (a) of the Superfund Amendments and Reauthorization Act of 1986 requires that the U.S. Marine Corps establish a technical review committee (TRC) to review and comment on the actions taken to document the type and extent of contamination at sites undergoing study in the Installation Restoration (IR) program for Marine Corps Air Stations at El Toro and Tustin.

To ensure the maximum effectiveness of the review process, expert membership for the TRC is being sought from all venues - both public and private. It is planned that the TRC will consist of representatives from the following organizations:

a. MCAS El Toro Environmental Office
b. MCAS Tustin
c. OICC, Southwest
d. COMCABWEST Counsel
e. MCAS El Toro Public Affairs Office
f. California Regional Water Quality Control Board, Santa Ana Region
g. Orange County Water District
h. Department of Health Services, Toxic Substances Control Division
i. U.S. EPA, Region IX
j. Orange County Health Care Agency
k. City of Tustin
l. City of Irvine
m. County of Orange

A meeting will be held on April 27, 1988 at MCAS El Toro at 1400 in building 65. At this time, the plan of action for the IR Confirmation Study will be reviewed by the TRC.

It is requested that you designate one individual to represent your agency on the TRC. Please submit your representative to MCAS El Toro (Code 1JG), by April 15, 1988.

If you have any questions, please contact Ensign Michael Renor, MCAS El Toro Environmental Director, at (714) 651-2821.

Sincerely,

S. P. HOLM, JR., CAPT, CEC
Director, Facilities Mgmt. Dept.
By direction of Commanding Officer
