South Coast Air Quality Management District
Attn: Mr. Bijan Ataian
9150 Flair Drive
El Monte, CA 91731

Dear Mr. Ataian:

As required by State Assembly Bill 2588, the Emission Inventory Plan for Marine Corps Air Station (MCAS) El Toro and Tustin is submitted for your agency's review and approval. Also enclosed are the application form and emission fees for each station ($1171.05 for MCAS El Toro, $238.65 for MCAS Tustin).

As you may be aware, the Department of Justice has filed a complaint entitled United States of America v. South Coast Air Quality Management District, et al, seeking declaratory relief, injunctive relief, and refund of fees previously paid under protest. To facilitate the review of this plan, we are paying the enclosed fees under protest.

If further information is needed, please contact Mr. Sam Lamb at (714) 726-6607.

Sincerely,

R. APPLEGATE, LCDR, CEC, USNR
Deputy Director, Facilities Mgmt. Dept.
By direction of Commanding General
