15 SEP 1983

From: Commanding Officer, Western Division, Naval Facilities Engineering Command
To: Commanding Officer, Naval Shipyard Long Beach, CA

Subj: Distribution of Final Initial Assessment Study (FIAS) for Naval Shipyard, Long Beach, CA

Ref: (a) Final Initial Assessment Study (FIAS) for Naval Shipyard, Long Beach, CA
(b) OPNAVINST 5090.1

1. Reference (a) is the FIAS for Naval Shipyard Long Beach, CA. Twelve sites of potential contamination were identified. However, the study concludes that none of the twelve sites poses a threat to human health or the environment to warrant a confirmation study. It is further recommended, that precautionary measures take place prior to disturbance or future construction at these sites.

2. Pursuant to Section 11204, item b (14) of reference (b), please notify this Command when the shipyard has released the FIAS to the Environmental Protection Agency, Region 9, and appropriate state agency (ies).

3. If assistance is required prior to release to regulatory agencies, please contact Mr. Henry Shanks of this Command on Autovon 859-7494 or Commercial (415) 877-7497.
