Subj: SITE SURVEY REPORT DRMO LOT 203

Encl: (1) CG memo 6280/9 FAC of 7 Feb 89

1. NREAD personnel were assigned to Lot 203 to perform official duties, i.e. segregated scrap metal up to 2 February 1989 when Lot 203 was closed due to safety concerns. The enclosure states data collected indicate no imminent hazard exist which represent a threat to the health and safety of persons utilizing Lot 203.

2. It is requested your office concur with the enclosure or provide safety guidance for NREAD personnel working at Lot 203 on a continuing basis or occasionally visiting Lot 203 in the performance of official duties.

3. Your assistance is also requested to help NREAD staff develop a safety plan for working at Lot 203 and working on hazardous material and hazardous waste spill incidents.

4. Point of contact in this matter is Mr. Sammy Gwynn, NREAD at extensions 2001/1690.

Subj: SITE SURVEY REPORT DRMO LOT 283

Encl: (1) Site Survey Report of 1 Feb 89

1. We are forwarding the enclosure to make these data available for your use regarding possible work place hazards at Lot 283. These data indicate no imminent hazards exist which represent a threat to the health and safety of persons utilizing Lot 283.

2. We have utilized portable gas chromatograph to identify the presence of organic vapors potentially affecting personnel at the site. We will continue to monitor this site and keep you informed of the results. Specifically, we are examining one location as described in the enclosure to define the depth of contamination by organic compounds.

3. For further information on this matter, contact Bob Alexander, extension 2814.
