Meeting Format and Content

The February 2018 RAB meeting was presented in a poster session format to provide an opportunity for community members to engage in an informal dialogue with project team members.

Seventeen presentation boards were on display at the RAB meeting and handouts were also available for further information. Poster stations included the following:

- Site 6 – Firefighter Training Area
- Environmental Restoration at Building 398
- The History of Herbicide Orange at NCBC Gulfport

In addition, a video of the soil stabilization project on Sites 8B & 8C was available for viewing.

Key Concerns Expressed by Community Members

There were no significant concerns voiced by community members at this meeting. One community member shared experiences as an NCBC Gulfport employee during the storage of Herbicide Orange on the facility.
