Re: Revised Decision Document
RIA 10C (Hangar 1 Lean-Tos)
Former South Weymouth NAS
RTN 4-3002621
December 7, 2009

Dear Mr. Helland:

The Massachusetts Department of Environmental Protection (MassDEP), Bureau of Waste Site Cleanup, reviewed the revised Decision Document for Review Item Area 10C (Hangar 1 North and South Lean-Tos), dated November 2009. Comments are attached.

If you have any questions about the comments, I can be reached at (617) 348-4005.

Sincerely,

David Chaffin
Federal Facilities Project Manager
Bureau of Waste Site Cleanup

**MASSDEP COMMENTS ON
REVISED DECISION DOCUMENT - RIA 10C
FORMER SOUTH WEYMOUTH NAVAL AIR STATION (RTN 4-3002621)
DECEMBER 7, 2009**

1. Section 2.1.2: To address the uncertainties associated with the soil sampling conducted to assess the potential releases of solvents from the two former degreaser locations, and to address the potential presence of solvent releases from the parachute shop, the decision document should include screening of the analytical results from groundwater samples collected from monitoring wells MW05-302, MW05-303, and MW05-304. As shown in Figures 8 and 9, water level measurements wells indicate that wells MW05-302 and MW05-303 are located downgradient of the degreasing area in the north lean-to, and well MW05-304 is located downgradient of the degreasing area and parachute shop in the south lean-to.
