RE: Draft Feasibility Study for Operable Unit 9, Sites 57 and 58, Naval Air Station Cecil Field, Florida.

Dear Mr. Davidson:

The Department has completed its review of the Draft Feasibility Study for Operable Unit 9, Sites 57 and 58, Naval Air Station Cecil Field, dated April 2002 (received April 15, 2002), prepared and submitted by Tetra Tech NUS, Inc. Attached is a Memorandum from Mr. Greg Brown, P.E., who states that the document is adequate for its intent. I have found this Draft Feasibility Study to be thorough and complete and have no comments. Depending on EPA comments, this document may be resubmitted as Final. Please note that the Final document should be signed and sealed by a Professional Engineer registered in the State of Florida.

If you have any concerns regarding this letter, please contact me at (850)921-9991.

Sincerely,

David P. Grabka, P.G.
Remedial Project Manager

Memorandum

TO: David P. Grabka, Remedial Project Manager, Technical Review Section

THROUGH: Tim Bahr, P.G., Supervisor, Technical Review Section ^B

FROM: Greg Brown, P.E., Professional Engineer II, ^{GB}
Technical Review Section

DATE: June 14, 2002

SUBJECT: Draft Feasibility Study Report at OU 9, Site 57 and Site 58, Former Naval Air Station Cecil Field, Jacksonville, Duval County, Florida

I reviewed the subject engineering document dated April 2002 (received April 15, 2002). The draft feasibility study is adequate for its intent. It provides a reasonable range of practical alternatives that give risk managers the opportunity to balance trade-offs between cost, effectiveness, and protectiveness. Please note for the final revision of the feasibility study that final engineering documents submitted to the public record should be signed and sealed by the professional engineer with responsible charge. Please call me at me at (850) 488-3935 if you have questions.
