Dear Mr. Davidson:

I have completed my review of the Final Phase III Well Abandonment Work Plan, NAS Cecil Field, dated July 23, 2002 (received July 24, 2002). The work plan adequately describes work approved by the Cecil Field Partnering Team. I have only one observation to make on the plan. It states in the report that well abandonment activities will be conducted in accordance with Tetra Tech NUS' SOP GH-2.9, Well Abandonment, and the U.S. EPA Region 4 Environmental Investigation Standard Operating Procedures and Quality Assurance Manual (EISOPQAM). Please ensure that the requirements of TtNUS' SOP and the EISOPQAM will also meet the St. Johns River Water Management District's requirements for abandoning wells.

This electronic message is being sent in lieu of regular mail. If you have any questions concerning this review, please contact me at (850)921-9991.

Sincerely,

David P. Grabka, P.G.
