LETTER REGARDING FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION  
APPROVAL OF SOURCE REMOVAL REPORT FOR EXCAVATION OF CONTAMINATED  
SOIL AT SITE 21 NAS CECIL FIELD FL

7/8/2003

FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION

July 8, 2003  
OFFICIAL CORRESPONDENCE

Commanding Officer  
attn: Mr. Mark Davidson, Code ES33  
Southern Division  
Naval Facilities Engineering Command  
Post Office Box 190010  
North Charleston, SC 29419-9010

Dear Mr. Davidson:

I have completed my review of the Source Removal Report, Excavation of Arsenic, Pesticide and TRPH Contaminated Soil at Site 21, Golf Course Maintenance Area (Facilities 238, 370, 371, 397 and 874), Revision No. 01, Naval Air Station Cecil Field, dated September 2002 (received January 8, 2003), prepared and submitted by CH2M Hill Constructors, Inc. The report documents soil excavation activities that occurred in May and June, 2001. Except for leaving a small area of contaminated soil located beneath a concrete pad adjacent to Building 238, the report documents that the excavation was conducted in accordance with the Removal Action Design Package for Site 21, Golf Course Maintenance Area (Facilities 238, 370, 371, 397 and 874) (TtNUS, 2000). The report is accepted as final.

This electronic message is being sent in lieu of regular mail. If you have any questions concerning this review, please contact me at (850)245-8997.

Sincerely,

David P. Grabka
