FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION APPROVAL OF 2002
ANNUAL AND FIRST QUARTER 2003 OPERATIONS AND MAINTENANCE STATUS
REPORTS FOR AIR SPARGING SYSTEM AT 103RD STREET/ A AVENUE NAS CECIL FIELD
FL
12/3/2003
FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION

December 3, 2003
OFFICIAL CORRESPONDENCE

Commanding Officer
attn: Mr. Gabe Magwood, Code ES24
Southern Division
Naval Facilities Engineering Command
Post Office Box 190010
North Charleston, SC 29419-9010

Dear Mr. Magwood:

I have completed my review of the 2002/2003 Annual Operations and Maintenance Status Report for the period May 23, 2002 – May 31, 2003 and the First Quarter 2003 Operations and Maintenance Status Report for the period of January 1, 2003 – March 31, 2003, for the Air Sparging and Soil Vapor Extraction System, 103rd Street and "A" Avenue Jet Fuel Transfer Pipeline, Naval Air Station Cecil Field, both reports dated August 2003 (both reports received September 15, 2003); prepared and submitted by Terraine Environmental Services, Inc. Both reports adequately describe the operations of the remedial systems at this site during the time period covered. The reports also correctly identify that the air sparging/soil vapor extraction system has been turned off and that the site is now in Post-Active Remediation Monitoring.

This electronic message is being sent in lieu of regular mail. If you have any questions concerning this review, please contact me at (850)245-8997.

Sincerely,

David P. Grabka, P.G.
