RE: Letter Report, Abandon/Close-In-Place, Tank 285, Naval Air
Station Cecil Field, Florida.

Dear Mr. Davidson:

I have completed my review of the Letter Report, Abandon/Close-In-Place, Tank 285, Naval Air Station Cecil Field, dated July 2004 (received July 12, 20004), prepared and submitted by CH2M Hill. The report documents the abandonment and closure in place of Tank 285, part of the septic system for Building 285, the control house for the former North Fuel Farm. The report documents the analysis of sediment and liquid contained in the tank and its associated sump, as well as the removal and disposal of this waste, and the decontamination, demolition and filling of the tank. The document is suitable for its intended use and is approved.

If you have any concerns regarding this letter, please contact me at (850)245-8997.

Sincerely,

David P. Grabka, P.G.
Remedial Project Manager
