**Subject:** RE: Cecil Field Well Abandonment Work Plan Phase VI

Dave, I corrected the title on the Main Base Figure to read Phase VI and the well that you identified southwest of Building 860 is "CEF-AOI31-1S" which is part of Site 36/37 LTM (not sampled, but used for water level measurements). This well is not to be abandoned. A PDF of this SAP will be placed on the DMS. Thank you for the quick turn review, the field efforts will begin tomorrow.
