RE: Sampling and Analysis Report for Building 635, Railroad Loading Dock, Naval Air Station Cecil Field, Florida.

Dear Mr. Davidson:

The Department has completed its review of the Sampling and Analysis Report for Building 635, Railroad Loading Dock, Naval Air Station Cecil Field, dated July 2004 (received July 5, 2004), prepared and submitted by Tetra Tech NUS, Inc. I have attached a letter signed my Mike Sole, Director of the Division of Waste Management, concurring that no further action with land use controls is an acceptable remedy for this site.

If you have any concerns regarding this letter, please contact me at (850)245-8997.

Sincerely,

David P. Grabka, P.G.
Remedial Project Manager

Commanding Officer
Attention: Mr. Mark Davidson, RPM (Code ES33)
Southern Division
Engineering Facilities Command
Post Office Box 190010
North Charleston, South Carolina 29419-9010

Dear Mr. Davidson:

The Florida Department of Environmental Protection concurs that based upon the information contained within the Sampling and Analysis Report for Building 635, Railroad Loading Dock, no further action with conditions is acceptable at the site. This acceptance is contingent upon acceptable land use control language being incorporated into the deed transferring the property associated with this site. Upon receipt of the recorded deed with acceptable land use control language, the acceptance of this remedy will be final.

If you have any questions concerning this letter of concurrence, please contact Mr. David P. Grabka, our NAS Cecil Field Remedial Project Manager, at (850) 245-8997.

Sincerely,

Michael W. Sole, Director
Division of Waste Management
