Subject: Work Plan Addendum No. 25 for Munitions Response and Excavation of Contaminated Soil at Site 15, Blue 10 Ordnance Disposal Area; Naval Air Station, Cecil Field, Florida

Dear Ms. Nwokike:

The Environmental Protection Agency (EPA) has reviewed the subject document and approves it. However, we have one request. We can read the document from the CD but are not able to save it, which is unusual. We can read the document on the CD but when we try to save it we get the error message that my computer can not read the document. Please submit another CD containing this report.

On a related note, I would like to commend you on the readability of this document as with all documents that I receive from CH2MHill at this facility. It is clear, concise, factual, well organized, and straight to the point, lacking fluff and not requiring rework, a characteristic of documents submitted by CH2MHill at this facility.

If you have any questions, please call me at (404) 562-8549.

Sincerely,

Doyle T. Brittain
Senior Remedial Project Manager
