RE: Final Pilot Study Work Plan for Site 59, Naval Air Station  
Cecil Field, Florida.

Dear Mr. Davidson:

The Department has completed its review of the Final Pilot Study Work Plan for Site 59, Naval Air Station Cecil Field, dated January 2006 (received January 13, 2006), prepared and submitted by Tetra Tech NUS, Inc. The Work Plan has been evaluated and approved. I have attached a memorandum with Jeff Lockwood's, P.E. Certification of Approval.

If you have any concerns regarding this letter, please contact me at (850)245-8997.

Sincerely,

David P. Grabka, P.G.  
Remedial Project Manager

CERTIFICATION OF APPROVAL

RE: Pilot Study Work Plan for In-Situ Bioremediation  
Operable Unit 9, Site 59, Buildings 324/1845 Area  
Naval Air Station Cecil Field, Jacksonville, Florida

In my professional judgment, the above-referenced pilot study dated January 2006 (received January 13, 2006), is supportive of a remediation system that provides reasonable assurance of reducing applicable pollutants that may be potentially harmful or injurious to human health or welfare and animal or plant life in accordance with state requirements described in Chapter 376, F.S.

I have not evaluated and do not certify aspects of this plan that are outside the limits of my review responsibilities and outside of my area of expertise, including but not limited to electrical, mechanical, and structural features.

Jeffrey D. Lockwood, P.E., BCEE
