RE: Draft Proposed Plan for Operable Unit 9, Site 59, Naval Air Station Cecil Field,
Jacksonville, Florida

Dear Mr. Davidson:

I have completed my review of the Draft Proposed Plan for Operable Unit 9, Site 59, Naval Air Station Cecil Field, dated April 2007 (received April 3, 2007). I have the following editorial comments on the Draft Proposed Plan:

- (1) On page 10, left-hand column, top of page, please remove the word "residential" that is between the words "that" and "exposure to groundwater". The Department does not recognize a residential exposure to groundwater that is different from a commercial or industrial worker's exposure to groundwater.
- (2) On page 10, left-hand column, bottom of page, please change (Class G-I) to (Class G-II). Groundwater in the surficial aquifer at Naval Air Station Cecil Field is classified as G-II groundwater.

If you have any concerns regarding this letter, please contact me at (850) 245-8997.

Sincerely,

David P. Grabka, P.G.
Remedial Project Manager
