OFFICIAL CORRESPONDENCE

Commanding Officer
attn: Mr. Wayne Hansel, Code ES245
Southern Division
Naval Facilities Engineering Command
Post Office Box 190010
North Charleston, SC 29419-9010

Dear Mr. Hansel:

I have completed my review of the Annual Operations and Maintenance Report, Bioventing and Biosparging Systems, South Fuel Farm, June 1, 2001 – May 31, 2002, Naval Air Station Cecil Field, dated December 2002 (received December 10, 2002), prepared and submitted by CH2M Hill Constructors, Inc. The report adequately describes the operations of the remedial systems at this site. I concur with the consultant's recommendation to continue operating the bioventing and biosparging system while evaluating remedial alternatives to supplement and/or modify the existing bioventing and biosparging system.

This electronic message is being sent in lieu of regular mail. If you have any questions concerning this review, please contact me at (850)245-8997.

Sincerely,

David P. Grabka, P.G.
