Dear Mr. Hansel:

I have completed my review of the 1st Quarter 2002 Operations and Maintenance Status Report, Biosparging and Soil Vapor Extraction System, Day Tank 1 Site, January 1, 2002 - March 31, 2002, Naval Air Station Cecil Field, dated July 2002 (received July 12, 2002), prepared and submitted by CH2M Hill Constructors, Inc. The report adequately describes the operations of the remedial systems and groundwater contaminant concentrations trends at this site for the 1st quarter of operation in 2002. I concur with the recommendation to continue operating the system and that recovery efforts to remove the LNAPL observed in VEW-1 be continued.

This electronic message is being sent in lieu of regular mail. If you have any questions concerning this review, please contact me at (850)921-9991.

Sincerely,

David P. Grabka, P.G.
