Dear Mr. Ugolini:

I have completed my review of the First Quarter 2004 Operations and Maintenance Status Report for the period of January 1, 2004 – March 31, 2004, for the Biosparging and Soil Vapor Extraction System, Day Tank 1 Site, Naval Air Station Cecil Field, dated June 2004 (received June 10, 2004), prepared and submitted by Terraine Environmental Services, Inc. The report is suitable for its intent. I agree that groundwater from vapor extraction well VEW-1 should be sampled and analyzed and that post-active remediation monitoring should continue.

This electronic message is being sent in lieu of regular mail. If you have any questions concerning this review, please contact me at (850)245-8997.

Sincerely,

David P. Grabka, P.G.
