RE: Source Removal Report, Soil and Free Product Removal at  
Building 846, Former Naval Air Station Cecil Field, Florida.

Dear Mr. Davidson:

I have completed my review of the Source Removal Report, Soil and Free Product Removal at Building 846, Former Naval Air Station Cecil Field, dated August 2005 (received September 8, 2005), prepared and submitted by CH2M Hill Constructors, Inc. The source removal project included the removal of the Day Tank 1 spill containment basin from service; abandonment and reinstallation of several Day Tank 1 soil vapor extraction wells, biosparge wells and groundwater monitoring wells; excavation to the prescribed limits of nine delineated areas of petroleum-contaminated soil; waste disposal characterization; transportation and disposal of 9,280.66 tons of petroleum-contaminated soil, 1,786 gallons of petroleum-contaminated water, 2.98 tons of petroleum-contaminated drill cuttings, 163.04 tons of asphalt, 348.89 tons of concrete and 207.15 tons of construction debris; and site restoration. This project is associated with the Day Tank 1 petroleum site. The Source Removal Report is approved as final.

If you have any concerns regarding this letter, please contact me at (850)245-8997.

Sincerely,

David P. Grabka, P.G.  
Remedial Project Manager
