RE: Zones D, F and G First Round Monitoring Well Construction and Development Logs.

Dear Mr. Bergstrand:

On behalf of the Caretakers Site Office, EnSafe/Allen & Hoshall is submitting copies of the well construction logs and well development logs for 10 wells installed in Zone F, 16 wells installed in Zone G, and 2 wells installed in Zone D at Naval Base Charleston. These wells were installed between August 27 and October 31, 1996 in accordance with SCDHEC well permit approval number HW-96-0076 (Bergstrand to Rose, August 30, 1996).

Four well pairs consisting of a shallow and deep well were installed at grid locations GDF-01, GDG-01, GDG-02 and GDD-01 in Zones F, G and D respectively. In addition, one deep well was installed at AOC 613 in Zone F. The remaining shallow wells were installed in the water table aquifer at AOC's 617, 619, 620 in Zone F, AOC's 636, 637, 638 in Zone G and SWMU 109 in Zone F and SWMU's 003, 011, and 120 in Zone G. The approximate well locations are illustrated in the original (revised) well installation request (Smith to Bergstrand) of August 26, 1996.

If you have any questions or if we can be of further assistance, please do not hesitate to contact us at (803)-884-0029.

Sincerely,
EnSafe/Allen & Hoshall
A Joint Venture in Professional Service
