February 25, 1998

Mr. Paul Bergstrand
South Carolina Department of Health
and Environmental Control
2600 Bull Street
Columbia, SC 29201

**RE: Request for Approval of Monitoring Well Installation
Zone G Naval Base Charleston, Charleston, South Carolina**

Dear Mr. Bergstrand:

This letter serves as a request to SCDHEC to issue well permits for four (4) shallow monitoring wells at SWMU 24 in Zone G at Naval Base Charleston. The monitoring wells will be installed to an approximate depth of 15 feet below ground surface. The locations of these proposed wells are shown in the highlighted SWMU 24 AREA on the attached figure. It is believed that each proposed location lies downgradient from the tanks in question at SWMU 24.

This submittal fulfills the requirements for notification to SCDHEC as stated in the *South Carolina Well Standards and Regulations Document R.61-71*. EnSafe, Inc. intends to initiate drilling activities during the week of March 16, 1998.

If you have any questions, comments or need additional information, please do not hesitate to call me or Todd Haverkost at (803) 884-0029. We look forward to hearing from you on this matter.

Sincerely,
EnSafe, Inc.
