Subj: RCRA PERMIT MODIFICATION

Dear Mr. Litton:

The purpose of this letter is to submit the RCRA Part B Permit modification per your request. The permit modification is requested due to several sites changing status to No Further Action for corrective action. The modification is a class 3 modification according to Part 270.42 of the South Carolina Hazardous and Solid waste Regulations, R71.69. The Department has previously concurred on the recommendations for No further Action, this correspondence is referenced in the attached appendices to replace those currently in the permit. The Statement of Basis for each No Further Action site is also included in this permit revision.

The Navy requests that the Department review and comment or approve the Permit Modification as applicable. If you should have any questions, please contact Amy Daniell or myself at (843) 743-985 and (843) 743-2063 respectively.

Sincerely,

  
ROBERT A. HARRELL JR., P.E.
