North Charleston, SC 29405

RE: Concurrence
Groundwater Monitoring and Well Inspection Workplan, Revision 1
Charleston Naval Complex (CNC)
SC0 170 022 560

Dear Ms. Daniell:

The Corrective Action Engineering and the Hydrogeology Sections of the South Carolina Department of Health and Environmental Control (Department) have completed the review of the above referenced document, which was received on October 22, 2002. This review was based upon applicable State and Federal Regulations, and the CNC Hazardous Waste Permit, effective May 22, 2002. The Department concurs with the implementation of this work plan with the attached conditions from the Division of Hydrogeology. Furthermore, the Department understands that numerous sites remain under investigation; however, when it becomes evident that particular sites will require long-term monitoring, the Department anticipates inclusion of these sites into this plan.

Thank you for your cooperation in this matter. If you have any questions or concerns, please contact me at (803) 896-4285.

Sincerely,

Jerry Stamps, Engineer Associate
Corrective Action Engineering Section
Division of Waste Management
Bureau of Land and Waste Management

Attachment:

Memorandum from Jo Cherie Overcash and Mansour Malik to Jerry Stamps dated November 25, 2002

cc: Tony Hunt, PE, SOUTHDIV
