Re: Revisions to the Final Comprehensive RCRA
Facility Investigation (RFI) Workplan,
Dated May 19, 1995
Charleston Naval Shipyard
SC0 170 022 560

Dear Captain Nold:

The South Carolina Department of Health and Environmental Control (Department) and the U.S. Environmental Protection Agency (EPA) have reviewed the above referenced revisions to the Comprehensive RFI Workplan in accordance with applicable State and Federal Regulations, and the Charleston Naval Shipyard's Hazardous Waste Permit, effective June 5, 1990. Based on this review the Charleston Naval Shipyard has not adequately fulfilled the requirements of Permit Condition IV.C.4 for the proposed changes.

Comments from both the Department and U.S. EPA are attached. Within thirty (30) days upon receipt of this letter, please make the specified changes and resubmit the appropriate revisions to the Comprehensive RFI Workplan in final form to the Department and U.S. EPA.

Should you have any questions regarding this issue, please contact me at (803) 896-4178 or Joe Bowers at (803) 896-4024.

Sincerely,

David Walton, Project Engineer
Hazardous Waste Permitting Section
Bureau of Solid & Hazardous Waste Management
