RE: Approval of *RFI Report for Zone J*  
Charleston Naval Complex (CNC)  
SC0 170 022 560

Dear Mr. Criswell:

The Department of Defense Corrective Action Section of the South Carolina Department of Health and Environmental Control (Department) received the above referenced document on May 15, 2013. The Department reviewed the document and response to comments. Based on the revisions the Department approves the document.

Pursuant to condition II.E.7 of the Charleston Naval Complex Hazardous Waste Management Permit (the Permit), the date of this letter will serve as the approval date of the RFI Report for Zone J. The approval of this report constitutes a No Further Action Determination for Zone J as well as AOCs 555, 556, 557, 691, 692, and 695. Therefore, Zone J and its associated AOCs will be included in the next permit modification in Appendix A-4 as sites requiring No Further Action. A Statement of Basis for Zone J and its associated AOCs should be provided no later than August 7, 2013. This document, providing a summary and justification of the selected remedy, will be included in the Public Participation package for the next permit modification.

The Department's approval is based on information presented by CNC to date. Any information contradictory to this decision may require additional action.

If you have any questions regarding this issue, please contact me at (803) 898-0368.

Sincerely,

Meredith Amick, P.E., Environmental Engineer  
Corrective Action Engineering Section  
Division of Waste Management  
Bureau of Land and Waste Management
