RE: Zone G / Area 20 - Hobson Fuel Farm
Charleston Naval Complex
Site Identification # 01190
Corrective Action Plan received 25 May 2001
Charleston County

Dear Mr. Magwood:

The Department has completed technical review of the referenced document. As submitted, the Corrective Action Plan (CAP) provides an outline of soil excavation activities designed to remediate hydrocarbon contamination at the referenced facility.

The request to initiate soil excavation activities in the vicinity of soil borings F20SP01404, F20SP02307 and F20SP02407 is approved. Transportation of excavated soils must be in accordance with local, state and federal regulations. Soils must be disposed of at a permitted treatment facility. Please notify the Department at least 48 hours in advance as to the exact date and time of excavation activities.

Once soil excavation activities have been completed, groundwater monitoring should commence as described in the CAP. The first groundwater monitoring report should be received within 45 days of excavation completion.

Should you have any questions please contact me at 803-898-3553 (office phone), 803-898-3795 (fax) or by e-mail bishopma@columb32.dhec.state.sc.us.

Sincerely,

Michael A. Bishop, Hydrogeologist
