Dear Mr. Magwood:

The Department has completed technical review of the referenced document. Interpretation of the analytical data provided in the referenced report indicates that chemicals of concern remain above established Risk-Based Screening Levels and MCLs. The Department concurs with the conclusions as presented in the report and free product recovery and groundwater monitoring and reporting should continue as prescribed in the Corrective Action Plan. The Department retains the right to require additional verification wells at the conclusion of corrective action activities to ensure cleanup consistency.

Please submit the next Corrective Action Report no later than 30 June 2005. Should you have any questions, please contact me at 803-898-3553 (office phone), 803-898-2893 (fax) or bishopma@dhec.sc.gov.
