RE: Finding of Suitability to Transfer (FOST) for the Chicora Tank Farm and  
Environmental Baseline Survey for Transfer (EBST), dated September 15,  
2000

Dear Mr. Shepard,

Please find the attached comment from our Bureau Of Water, Groundwater  
Quality Section on the above referenced document. This comment concludes our  
comments to be submitted on this revision of the Chicora Tank Farm FOST and EBS.  
SCDHEC will gladly participate in any meetings necessary to facilitate the approval  
of the referenced document. If you should have any questions, please contact Mihir  
Mehta at (803) 896-4088 or myself at (803) 898-3973.

Sincerely,

Keith Collinsworth, P.G.  
Federal Facility Liaison  
Environmental Quality Control

The author has completed technical review of the referenced documents. As submitted, the documents provide a description of the physical and environmental condition of the subject property. Based on the information provided and data associated with previous environmental assessments conducted on the site, it appears that a reasonable and appropriate determination concerning site environmental conditions and associated risk (health and/or environment) has been developed for the subject property. Based on the above and with consideration to our meeting with Mr. Tony Hunt on 31 October 2000, provided the identified land and/or groundwater use restrictions are applied the subject property appears suitable for transfer as requested. Should you have any questions please contact me at 8.3559 or e-mail @bristopl.
