ASSESSMENT STUDY NCBC GULFPORT MS

7/22/1985
U S NAVY

DEPARTMENT OF THE NAVY

NAVAL ENERGY AND ENVIRONMENTAL SUPPORT ACTIVITY
PORT HUENEME, CALIFORNIA 93043-5014

IN REPLY REFER TO:

11100/1
Ser 112N/ 1094

22 JUL 1985

From: Commanding Officer, Naval Energy and Environmental Support Activity

Subj: DISTRIBUTION OF FINAL REPORT OF INITIAL ASSESSMENT STUDY FOR NAVAL
CONSTRUCTION BATTALION CENTER, GULFPORT, MISSISSIPPI

Ref: (a) OPNAVINST 5090.1 of 26 May 83
(b) CNO ltr 451/3U392444 of 5 Jul 83 (NOTAL)

Encl: (1) NEESA 13-64, Initial Assessment Study of Naval Construction
Battalion Center, Gulfport Mississippi

1. The Navy Assessment and Control of Installation Pollutants (NACIP) program was authorized by reference (a). This program provides for the identification, assessment, and control of environmental contamination from past storage, use and disposal of chemicals and hazardous materials at Navy and Marine Corps activities. Under NACIP, we conduct an initial assessment study (IAS) at an activity to ascertain the potential for environmental contamination. The study is coordinated with the cognizant Naval Facilities Engineering Command (NAVFACENGCOM) engineering field division (EFD). If sites posing a potential threat to human health or to the environment are found at an activity, a confirmation study and, if required, projects for corrective measures are initiated by the EFD. An IAS for Naval Construction Battalion Center (CBC), Gulfport was approved by reference (b).
2. Enclosure (1) was prepared for us by Environdyne Engineers, Inc. As required by reference (a), CBC Gulfport is requested to forward the report to the cognizant Environmental Protection Agency regional office and appropriate state agency within 30 days of receipt. We request that a copy of the forwarding letter be sent to our command, Code 112N.
3. Six sites were recommended for confirmation study, Phase II of the NACIP program. The confirmation study consists of detailed physical and analytical monitoring to confirm or deny the presence of any contamination or health hazards, and to quantify the extent of any problems that may exist.
4. Southern Division, Naval Facilities Engineering Command (SOUTHNAVFACENGCOM) will coordinate all further actions of the NACIP program and will assist CBC Gulfport with the confirmation study. SOUTHNAVFACENGCOM point of contact is Code 114, AUTOVON 794-5510, FTS 679-5510, or commercial (805) 743-5510.
5. Our point of contact for questions concerning this IAS is Kent Adams, Code 112N, AUTOVON 360-3351, FTS 799-3351, or commercial (805) 982-3351.
