December 15, 1986

Mr. Bruce Campbell
Department of the Navy
Southern Division
Naval Facilities Engineering Command
P. O. Box 10068
Charleston, South Carolina 29411-0068

Dear Mr. Campbell:

Re: Review of Draft Final
Verification Work Plan
Naval Construction Batalion Center
Gulfport, Mississippi

The Bureau of Pollution Control has reviewed your September 12, 1986, proposal and concurs with Harding Lawson Associates' proposal with the addition of two comments:

1. The Bureau recommends that the company run a priority pollutant scan which includes acid compounds, base/neutral compounds, volatiles, and pesticides;
2. The Bureau understands that final selection of well placement locations are contingent on the results of the proposed magnetic survey. Therefore, the Bureau should be informed of these locations after the selection process is complete but prior to the installation of the wells.

Should you have any questions concerning the above, please do not hesitate to call me at (601) 961-5171.

Sincerely yours,

Walter Huff, P. E.
Hazardous Waste Section
