Dear Gary:

Thank you for your letter of 5 October concerning the Technical Review Committee.

Based on our long years of working together in my previous life, you know you can call on me and get results when you need to, so don't hesitate to do so.

I hereby appoint Buddy S. Broadway, our new director of Public Works, as my representative on the Committee and notify him of this appointment by copy of this letter.

Buddy is a registered civil engineer and will work with you and the Committee in every way possible.

Give me about another three weeks then let's get together for a visit to discuss ways the City and CBC can work together for mutual benefit.

With high regards,

Ken Combs
Mayor
