Re: Site 8 (Former Herbicide Orange Storage Area and Associated Areas) Sampling And Analysis Plan (Field Sampling Plan and Quality Assurance Project Plan) for Remedial Action Optimization, Naval Construction Battalion Center Gulfport, MS, Draft Final, September 2014.

The Mississippi office of Pollution Control has reviewed the above referenced document. No concerns about the sampling and analysis plan were noted during document review and planned objectives mirror those described during meeting presentations and discussions. The document should be issued as final after concerns from all other reviewers have been addressed.

Feel free to contact me if I can be of further assistance.

Regards,

Bob Merrill
