RE: Proposal for Innovative Technologies at Trumbo Point.  
Naval Air Station Key West, Florida

Dear Mr. Maughon:

I have reviewed the above referenced document dated August 1998 (received September 4, 1998). Based on extensive discussions with Roy Hoekstra, P.E., and previous site visits to Trumbo Point Fuel Farm, I approve the proposal to install the heater well technology as a pilot project at the above referenced site. As discussed with Mr. Hoekstra, I look forward to being updated on the implementation schedule of this technology.

If I can be of any assistance in this matter, please contact me at 904/488-3935.

Sincerely,

  
Jorge R. Caspary, P.E.
