RE: Groundwater Monitoring Report for Ponciana Housing BRAC  
Property. Naval Air Station Key West, Florida

Dear Mr. Patrick:

I have reviewed the above referenced report dated January 1999 (received January 22, 1999) and based upon our February 9, 1999 teleconference, you are to implement a supplemental soil and groundwater investigation in the vicinity of MW-1 to ascertain the probable source of arsenic in groundwater. As discussed, I plan to meet with you and consultants on Monday February 22, 1999 to discuss specific technical details of the supplemental investigation effort.

If I can be of any assistance in this matter, please contact me at 904/488-3935.

Sincerely,

Jorge R. Caspary, P.G.
