RE: Monroe County - ERP
Permit Modification
File No. 442959285

Dear Mr. Demes:

We are in receipt of your request for a modification of the permit conditions dated February 4, 1997 (copy enclosed). The conditions are changed as follows:

From: Permit drawing attachment 6a (dated 10/1/96), showing revetment slopes of 2.5 to 1 and 2 to 1;

To: Permit drawing attachment 6a (dated 1/31/97), showing a revetment slope of 3 to 1.

This letter (notice) must be attached to your permit and becomes a part of that permit. The permit expiration date, all general and specific conditions of the permit, authorization to use state-owned submerged land and your rights pursuant to Chapter 120, Florida Statutes shall remain unchanged.

A copy of your request for a modification has been sent to the US Army Corps of Engineers (USACOE) for review. The USACOE may require a separate permit. Failure to obtain this authorization prior to construction could subject you to enforcement action by that agency. For further information, you should contact the Miami office of the USACOE.
