Mayport, Florida 32228-0112

RE: SARA Technical Review Committee
5090
SER N4221/6442

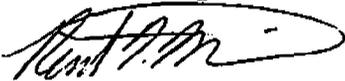

Dear Captain Van Saun:

I am in receipt of your letter dated December 16, 1991, regarding the Technical Review Committee of concerned governments and organizations established to consider matters relating to the Superfund Amendment and Reauthorization Act (SARA) of 1986.

I appreciate the Navy's efforts to keep your neighboring jurisdictions apprised of activities such as this, and inviting our input on these issues. As I understand it, there are no Superfund sites at Mayport, but pending rule changes could result in some designations in the future.

To expedite our response to future meeting notifications, I am designating Steven G. Lindorff, Planning and Development Director, as the City's representative on this committee. Please direct all future correspondence to Mr. Lindorff at the City of Jacksonville Beach, 11 North 3rd Street, Jacksonville Beach, FL 32250. He can be reached by phone at 247-6231.

Yours truly,

Reid T. McCormick, Mayor
City of Jacksonville Beach

RTM/mr
