Mr. Joseph R. Franzmathes
Waste Management Division, Region IV
U.S. Environmental Protection Agency
345 Courtland Street, N.E.
Atlanta, GA 30365

Subj: SWMU 54 - OIL/WATER SEPARATORS,
AOC A - FUEL DISTRIBUTION LINES,
AOC B - PRODUCT STORAGE TANKS,
NAVAL STATION MAYPORT, PERMIT FL9
170 024 260

Dear Mr. Franzmathes:

Naval Station Mayport (NAVSTA) requests the official transfer of the management and further investigation of SWMU 54 - Oil/Water Separators, AOC A - Fuel Distribution Lines and AOC B - Product Storage Tanks at Building 25 and 265 to FAC 62-761 and, if appropriate, FAC 62-770 programs.

SWMU 54 and both AOCs are currently managed under FAC 62-761 and the Alternate Procedures Agreement between the State of Florida and the Navy. If petroleum contamination is found at these sites during scheduled replacement of the associated tanks, they will then be managed under the FAC 62-770; therefore, there is no need to investigate them under the HSWA program.

NAVSTA requested concurrence on this action from the Florida Department of Environmental Protection (FDEP) which we received via the enclosed FDEP letter of June 28, 1995.

If you have any further questions regarding this subject, NAVSTA's point of contact is Cheryl Mitchell (N4E4), at 904-270-6730.

Sincerely,

ROBERT P. WALDEN
Lieutenant Commander, CEC, U.S. Navy
Staff Civil Engineer
By direction of
the Commanding Officer
