RE: Final RCRA Facility Assessment Sampling Visit Report for Group I and II SWMUs,
NAVSTA Mayport, July 1995

Dear David:

I have reviewed the above document dated July 1995 (received July 31, 1995). The document adequately addresses my previous comments and other than the following minor comments and corrections, is adequate for its intended purpose. Regarding the corrections, I suggest that when they are completed, furnish the corrected pages to me and I will insert them in the final document.

1. The term "benchmark values" is used frequently. Please insert a brief explanation of the meaning of the term.
2. Section 4.5.2: add small mammals such as raccoons, foxes, etc. to this section.
3. Beryllium is misspelled in Table C-3.
4. Tables C-3, C-8 and C-9 refer to units as mg/L; they should be mg/kg.
5. The SWMU number on Table C-7 is missing.
6. The response to comments by the Natural Resources Trustee (section 2.3 and 2.4) incorrectly refer to the Technical Review Section.
