RE: Information Copy-Bioslurping at Naval Station Mayport, Florida: Full-Scale Bioslurper System Evaluation, Naval Station Mayport, Mayport, Florida

Dear Ms. Wilson:

Thank you for the information copy of the referenced document produced by Battelle dated March 30, 1998 (received April 20, 1998). I assume that the Navy intends to place the system into active service, in which case the system design and operational details and responsibility should be delineated. Since this is an IRP project, please submit an RD/RA document so that Mr. Greg Brown, P.E., can conduct the necessary review.

If you have any questions, please contact me at 850-921-4230.

Sincerely,

James H. Cason, P.G.
Remedial Project Manager
